- Long term ECG*

Terms and Conditions

1.1 Appointment booking

MedBeat has outlined in this document the terms and conditions applicable when a long term ECG device is rented from the company. If you have any questions regarding what is written, feel free to contact us at info@medbeat.se.

The terms and conditions below apply for customers unless some other written agreement is signed by both MedBeat and the customer. Otherwise in booking an appointment through Kaddio the customer accepts these terms and conditions.

1 Booking

Bookings are to be done through the website medbeat.se. From the website customers are linked to Kaddio. Within Kaddio they can see available booking times and dates. If none of the available time slots work for the customer they are then free to send an email to info@medbeat.se and inquire about availability.

2 Canceling a booking

If the customer wishes to cancel a booking they must do so at least 24 hours before the visit. The cancellation of the booking is done through a link in the confirmation email from Kaddio. If they have already paid for the visit a full refund will be given.

If the customer fails to cancel in time they will be charged the full price for the visit.

3 Pricing

A 45 minute auskultation costs 1995 sek.

For sports teams a group discount applies. Contact us at info@medbeat.se to receive a price estimation.

4 Payment

Payment for private bookings done through the website will be paid for through Kaddio as the booking is made. If the booking is to be canceled in time the patient will receive a full refund.

5 Clinic Scheduling/Cancellation

We at The Heart Lab believe that it is important to see as many patients as possible in order to make sure that persons and athletes around Scandinavia are heart healthy. However there may be times when the clinic needs to reschedule appointments. If this happens the clinic needs to inform the patients at least 2 hours before the appointment. If the appointment is to be canceled for one reason or another the clinic needs to communicate this 2 hours in advance. If the clinic cancels the appointment the patient will receive a full refund.

Rental Terms and Conditions

1.2 Long Term ECG

MedBeat has outlined in this document the terms and conditions applicable when a long term ECG device is rented from the company. If you have any questions regarding what is written, feel free to contact us at info@medbeat.se.

The terms and conditions below apply for customers unless some other written agreement is signed by both MedBeat and the customer. Otherwise in registering to receive a long term ECG the customer accepts these terms and conditions.

1 Receiving/Return of device

Once the customer orders their device they will receive information surrounding the length of time it will take for them to receive the device. The time period may vary depending upon availability of devices. The customer will be notified when their device has been sent to them. MedBeat keeps track of the order throughout the delivery process and will contact the customer if there have been any issues.

When the device is to be returned the customer simply applies the return label to the extra bag included in the original package and packs all equipment into the bag. MedBeat will automatically be notified on the day the package is mailed. The device is considered to be returned on time if the mailing day occurs before the rental period expires.

The customer is not responsible for any shipping fees during delivery or return.

2 Rental time

The long term ECG device is rented out for one month at a time. The device should be placed in the mail for return to MedBeat within this time period. If the customer wishes to prolong the rental period see section 3 Extension of rental time.

It is to be noted that even if the device is used by the patient for an extended amount of time only a week of data will be analyzed. The week which is analyzed is specified by the patient. The reasoning of a month-long rental is solely for detecting arrhythmias which occur less frequently.

3 Extension of rental time

Each time the customer wishes to extend the rental period they must contact MedBeat at info@medbeat.se and get approval for the said extension. The customer can themselves request This extension of a rental agreement must be agreed upon before the initial rental period is over.

The customer is limited to a maximum rental period of 6 months.

3 Payment

Initial rental

The cost of the initial months rental costs a total of 5000 sek. The payment for this rental will be made before the device is sent to the customer.

Extension of rental

If the rental period is to be extended the customer is to pay an extra 1000 sek for each additional month. The length of the extension period(number of weeks) will be decided between the customer and MedBeat. Once decided, the payment must be made to MedBeat before the end date of the prior rental period.

4 Care and operation

The device shall be operated in a way that complies with the instruction manual. It shall not be used in any way not included in the manual. If anything about the device is unclear the customer shall contact MedBeat.

If the device is to malfunction or break in any way, the customer is prohibited to repair or change it in any way. The damages or problems should be reported to MedBeat as soon as possible and the device should be returned.

5 Additional Charges

Late Fee

The customer will be notified of their missed return date. If the device is not placed in the mail back to MedBeat within the specified rental time the customer will automatically be charged for a month-long extension. This charge comes in the form of an invoice for 1000 sek. This applies until the device has been with the customer for 6 months. At this point the device counts as missing and the customer will be charged an appropriate amount to replace it.

Damage of device or missing parts

Misuse which leads to the damage/destruction of the device, and/or missing parts will lead to additional charges. These charges vary depending on the extent of the damage.

6 Insurance

If the customer wishes to insure the device in case of damage or theft it is up to them to do this on their own. MedBeat does not offer any insurance options.

7 Responsibility

MedBeat, who cannot monitor the customers use of the rented device and the circumstances under which the device is used, is not responsible for personal injury, or property damage that may arise from the customers use of the device.

If the device is to malfunction in a way that the customer is not responsible then the device must then be returned to MedBeat and a new device will be sent to the customer as quickly as possible.

8 Condition of Equipment

Once the device is received by MedBeat it will be inspected. The customer is freed of their responsibility for the device when the package is received with all necessary parts in good working condition.

9 Ownership

Throughout the rental period the device is owned by MedBeat. Anything in this contract that may be interpreted as the customer having ownership of the device does not give them any ownership.
